SIM IN A BOX®

SIM IN A BOX® CUSTOM

No matter the application, SIM IN A BOX is the most complete all-in-one virtual golf package available today.

THE PERFECT ALL-IN-ONE SOLUTION

Every custom SIM IN A BOX® package includes every component necessary to enjoy true-to-life golf gameplay, including:

- Launch Monitor with Clubhead Data
- Simulator Enclosure with Hitting Screen
- Hitting Mat & Turf
- Gaming-Optimized Desktop Computer
- Projector & mounting accessory
- FSX Software Suite with 35 Golf Courses

MSRP Starting at:

CA$22,483

Tax and Freight not included in MSRP shown.

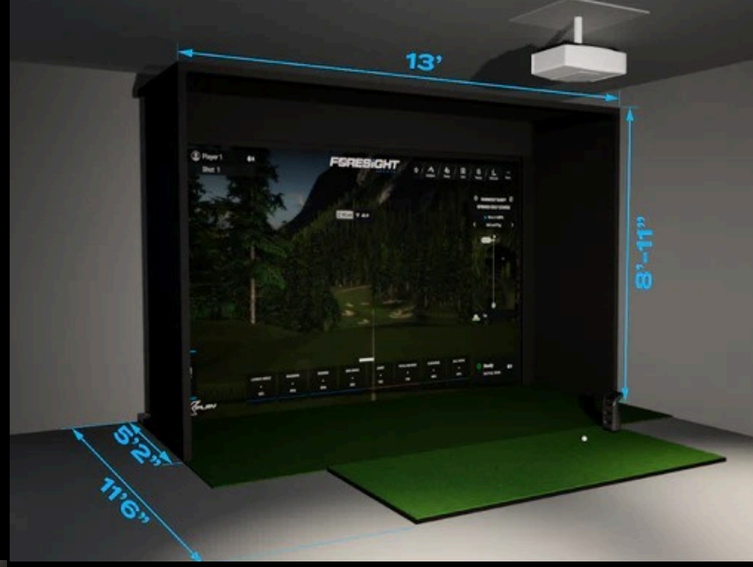

Choose Your Setup

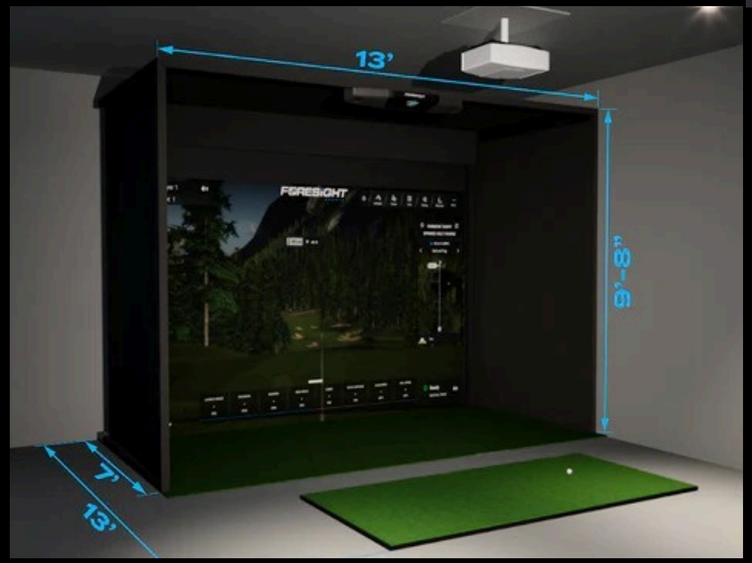

STANDARD SIZE

Dimensions:

- Width: 13’
- Depth: 11'6"
- Height: 8'11”

SIAB EXTENDED

Dimensions:

- Width: 13’
- Depth: 16’
- Height: 8’11”

The SIAB system is the most complete all-in-one virtual golf solution available today. Paired with the industry’s leading launch monitor, it delivers true-to-life performance indoors, while doubling as one of the most powerful performance analysis tools in the game for outdoor use.

VANISH SERIES®

The Vanish Series is a ceiling-mounted, retractable enclosure that turns any room into a golf simulator in seconds, then disappears just as fast.

A COMPLETE SIMULATOR SOLUTION – WITHOUT THE NEED FOR A DEDICATED ROOM

The Vanish Series includes everything needed to create a clean, retractable simulator enclosure in your space:

- Vanish retractable enclosure system
- Selected enclosure size (9, 11, 13H, 16 / 16H, etc.)
- Choice of hand crank or remote-controlled operation
- Mounting hardware and structural components

Optional Add-Ons:

- Launch monitor (GC3, GCQuad, QuadMAX, Falcon)
- Projector bundle (BenQ AH700 with mount and cables)
- PC bundle (compact performance computer with cables)

MSRP Starting at:

CA$5,599

TaxandFreightnotincludedinMSRPshown.

CUSTOM SIMULATION

Our Custom Simulation brings the industry's best technology, components, and design into the ultimate value-for-dollar solutions available today. Each custom package is powered by our core GC launch monitor technology – the most trusted in the game – and complemented with professional-grade components guaranteed to deliver true-to-life golf entertainment and performance for years to come.

THE PERFECT ALL-IN-ONE SOLUTION

Choose from premium materials and options, including:

- Any Foresight launch monitor
- Tailored enclosure to fit your space
- Custom turf and hitting mat
- Gaming-Optimized Desktop Computer
- FSX Software Suite with access to over 250 digital courses
- Side curtains or acoustic panels

MSRP Starting at:

CA$29,999

PREMIER

PRACTICE.
PLAY.
COMPETE.

FORESIGHT | Bushnell GOLF

PREMIER

Foresight's newest golf simulation software

Foresight Premier provides immersive course play, robust performance analysis,
and professional-grade tools that coaches and fitters rely on.
It's for every sim screen in every setting — residential sims, coaching studios,
and commercial bays.

Why Premier is different

Three things every shot in the sim is built on.

Next-gen simulation

Real practice, real rounds, real progress. You see your game clearly, your gaps close, and there is more golf in your life all year long.

Unified with the Foresight App

Sessions, shot history, and MyBag data sync across Premier and the Foresight App. Understand your game better than ever, wherever you are.

Built on Foresight's accurate measurement

Every rendered shot starts from measurements taken at impact by Foresight launch monitors. Professional-grade simulation, powered by professional-grade data.

Play real courses

Built on proprietary terrain data, then crafted by Foresight's design team to play true-to-life.

The world's best courses

Enjoy officially licensed courses from around the world. Try manicured parklands, iconic links courses, and dramatic desert tracks.

The most realistic golf simulation

Every shot flies based on data measured at impact. Then, Premier's physics are brand new and tuned for realistic ball behavior.

Available with Course Pass

Play your way - opt for the standard Course Pass or upgrade to Course Pass Pro for unlimited access to Premier's full course library.

See every shot

The full picture of your swing on the big screen.

Every number, your way

Up to 14 data tiles you arrange yourself, plus a shot table with two dozen metrics per swing.

See the shape

2D and 3D dispersion with per-club groups and zones, so your patterns are obvious at a glance.

The club at impact

With face, path, and impact location rendered in 3D, see the why behind every number.

Practice & improve

Sharpen your game with tools built for top instructors and fitters.

Structured practice

Drills and practice modes that turn sim time into measurable progress, tuned to your game.

Coaching tools

Swing video capture, support for multiple profiles, and robust tools for visualizing, teaching and fitting.

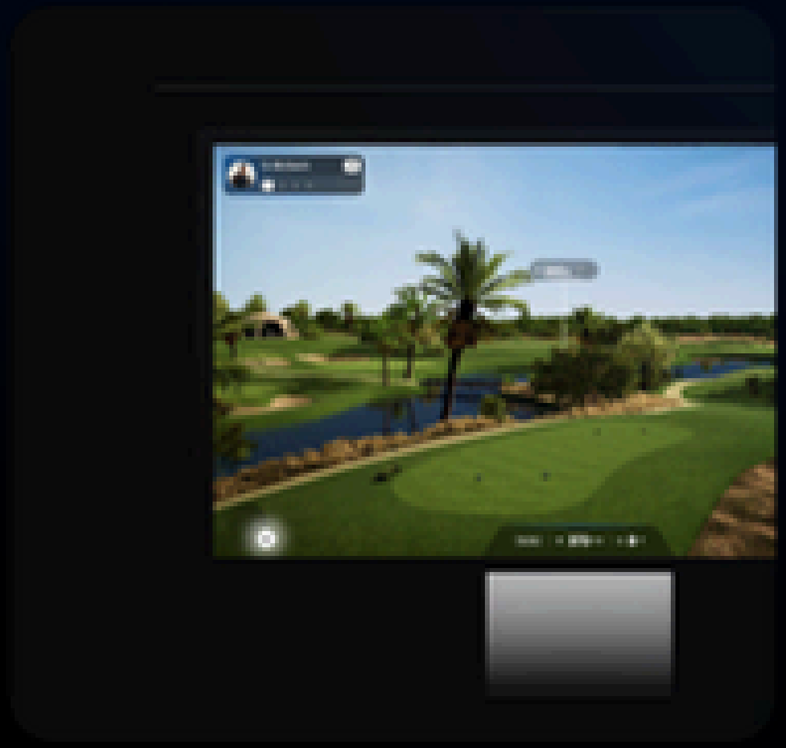

Works with your setup

Your Foresight launch monitor and your PC. Plug in and play.

Your launch monitor

Premier runs with all Bushnell launch monitors and all modern Foresight monitors. GC3, GC3S, GCQuad, QuadMAX, GCHawk, Falcon.

On your PC

Built for the sim screen. Plug in your launch monitor and play, no extra hardware required.

One account

Sign in and your bag, your history, and your membership are already there, in sync with the app.

FSX THIRD-PARTY SOFTWARE INTEGRATIONS

Unlock more fromyourlaunch monitor withthe industry’s largestlibraryof integrated software. Enjoy seamless gameplay, advanced performance insights, and trusted support featuring E6 Connect, GSPro, Creative Golf, Swing Catalyst, and Awesome Golf.

Awesome Golf

- Skill-Building Games perfect for all ages and skill levels
- Designed for iPad, both PC and Mobile-based installations available

- Skill-Building Fun for the Entire Family
- Multi-Game Action including Shooting Gallery, Balloon Pop, and Putt Skee

GSPro

- Skill-Building Games perfect for all ages and skill levels
- Designed for iPad, both PC and Mobile-based installations available

HeroSpace

- Turn your simulator into an interactive arcade with games for all skill levels
- Engage players, guests, and groups with fast-paced, social golf experiences

E6 Connect

- Stunning graphics, a library of world-renowned courses, and a growing network of engaged golf enthusiasts
- 27 iconic golf courses

FORESIGHT+

YOUR STATS,
EVERYWHERE YOU PLAY

FORESIGHT

Bushnell GOLF

FORESIGHT+

One membership for every way you play.

Get Foresight Premier and the Foresight App.
Foresight+ membership unlocks premium features on both.

THE SIM

Foresight Premier

Where you play. Immersive course play and rich shot analysis on the big screen.

EVERYWHERE

Foresight App

Where you practice and review. Range sessions, training drills, and MyBag, always with you.

See your game

Your shot, on screen

Tiles and a sortable table for every number, plus a 3D club view that shows face, path, and impact on each swing.

Patterns, not guesses

Dispersion maps your shot shape with tracers, so you can see where the ball goes and how it gets there.

Compare and learn

Put two clubs side by side, or pair with your swing video to connect your motion to your shots.

Build your game

Structured practice

Drills like Ladder and Target Practice turn open range time into measurable reps, tuned to your handicap.

Your real distances

Bag Mapping sets every club's carry from your own measured swings, so your numbers are actually yours.

Coaching built in

Swing video and AI insights show what changed and what to work on next, written from your measured record.

Practice on real holes

Situational drills played to real course holes, with scoring that knows a fairway hit from a miss.

Play anywhere

Real courses in the sim, and the course you'll play this weekend in your pocket.

Real courses in the sim

Premier plays the world's top courses rendered in 4K, every shot driven by the data measured at impact.

The course in your pocket

Local Courses covers 42,000+ courses worldwide for scouting, GPS, and pre-round prep on Mobile.

Bring your friends

Connected competition lets you play and compete together, wherever everyone happens to be.

Foresight+ memberships

Unlock performance features - choose the tier that fits your game.

Free

Step into the sim.

- Shot data
- Core data views (tiles, table, range)
- Your last ten sessions of history

- ... and more

Prices shown in USD.

FORESIGHT APP

The range, the course, and the sim.

Get to know the Foresight App

The app for the range, the course, and everywhere in between. Make the most of your range balls, then review your sessions from anywhere.

Download on the App Store

GET IT ON Google Play

GET TO KNOW THE FORESIGHT APP

The mobile app for Foresight launch monitors.
A great way for golfers to make the most of their range time.

Your Foresight companion

The app for the range, the course, and everywhere in between. Make the most of your range balls, then review your session from anywhere. Available in the Apple App Store and Google Play Store.

First-class tablet experience

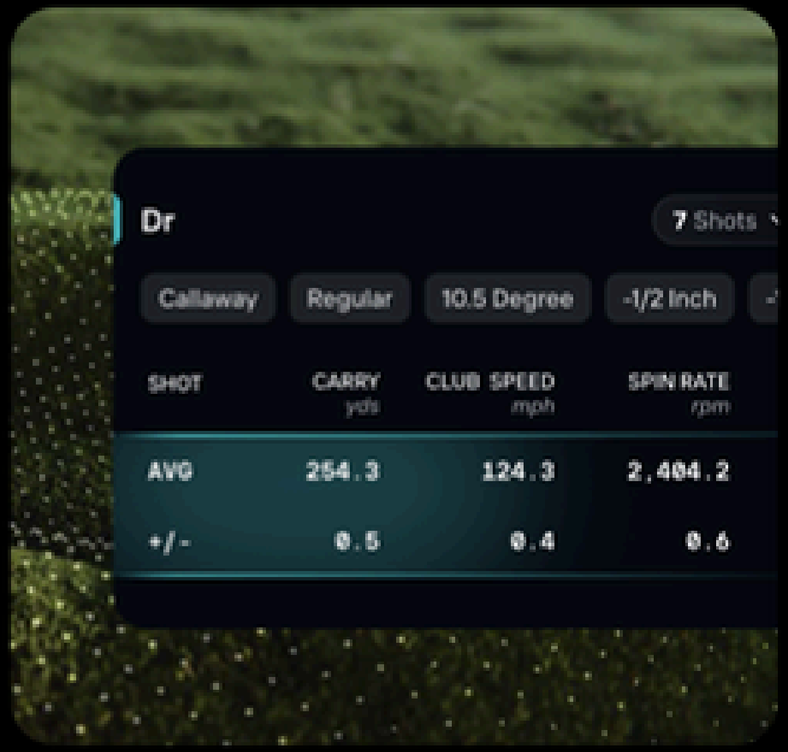

Built for fitters, coaches, and golfers who prefer devices larger than phones. Enjoy experiences designed explicitly with tablets in mind, like Split view.

No compromises

Professional-grade Foresight data, now visualized in a professional-grade app. Built on the platform that's been the benchmark for golf since 2010.

CORE APP FEATURES

The practice and review feature set, live on iOS and Android.

Shot analysis

Tiles, table, range, and 3D club views, with normalization. Dispersion view, tags, zones with Silver membership. Club comparison, tablet split view, and swing video with Gold membership.

Drills

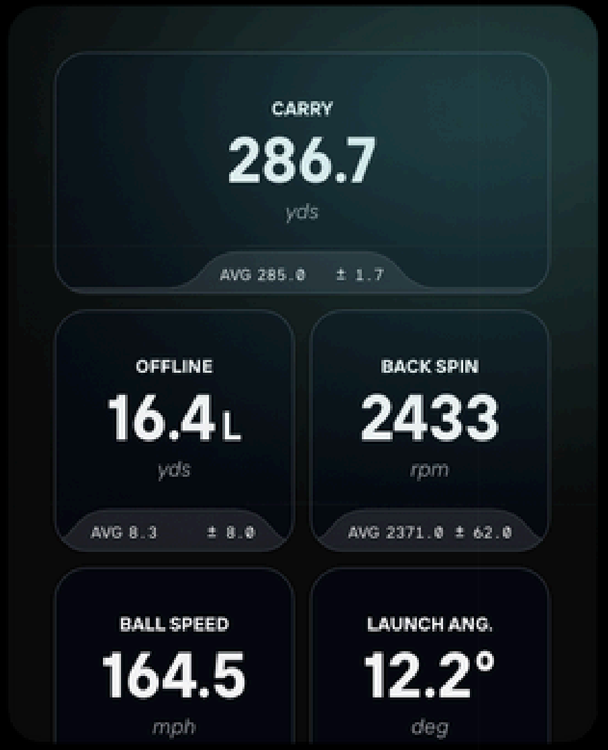

Ladder Drill and Target Practice drills (require Silver membership). Off the Tee at Gold. Configurable difficulties, quadrant targeting, scoring, and strokes-gained analytics.

MyBag

Get to know your numbers with per-club carry, gapping, and dispersion. Bag Mapping builds every club's distance profile from real measured swings.

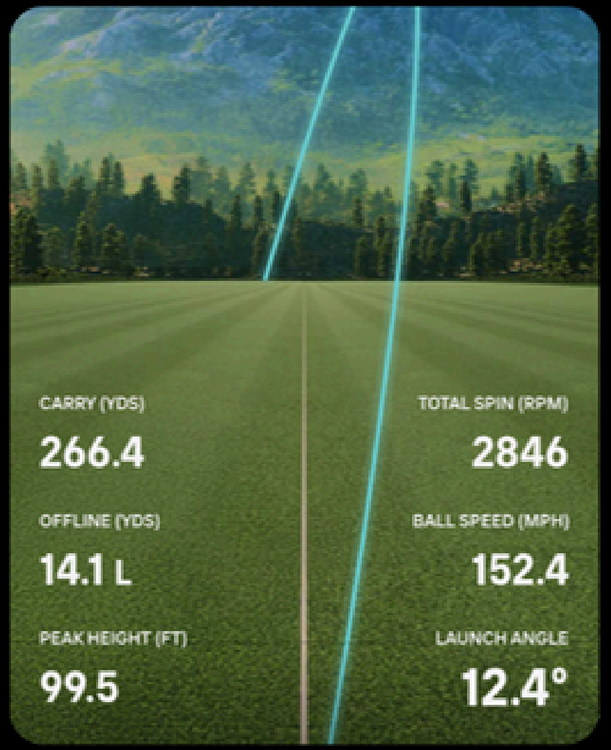

FEATURE BREAKDOWN: SHOT ANALYSIS

Foresight's core visualization screens, one by one.

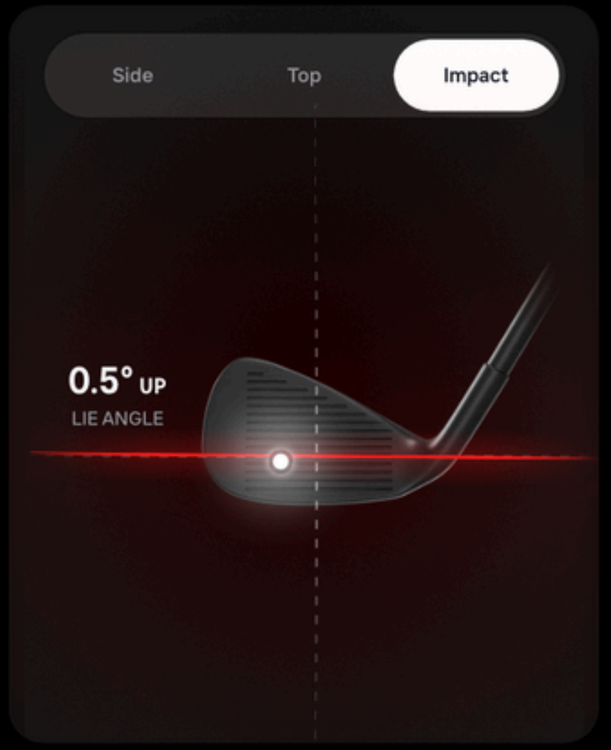

Tiles + table view

A customizable grid of shot metrics, and a sortable table with every shot in every session. No membership required.

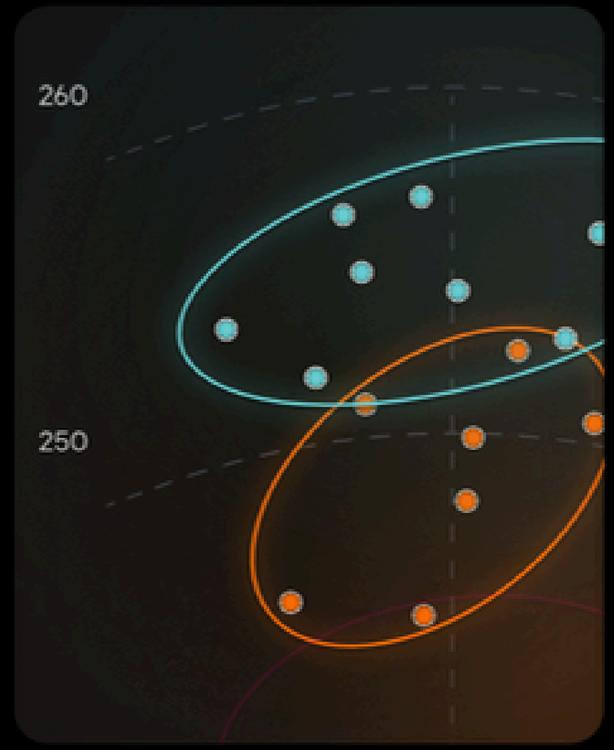

Range view

Top-down and down-the-line views give a look at ball flight and shot shape from a golfer's eye view. No membership required.

Club view

3D club visualization helps show the why behind the number. Face, path, and impact rendered. Club data-capable launch monitor required.

Dispersion view

Shot patterns from multiple clubs drawn with flight-path tracers, filtered by tags and zones, with per-view settings. Silver membership required.

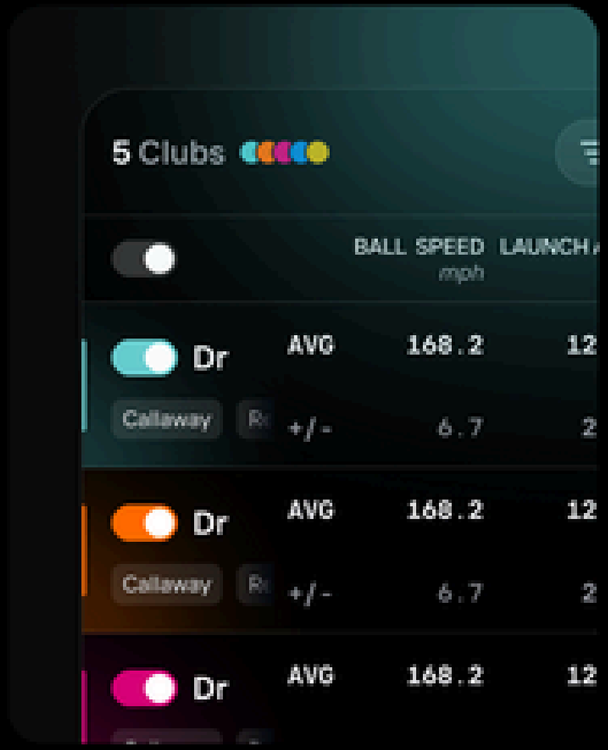

FEATURE BREAKDOWN: SHOT ANALYSIS

Foresight's core visualization screens, one by one.

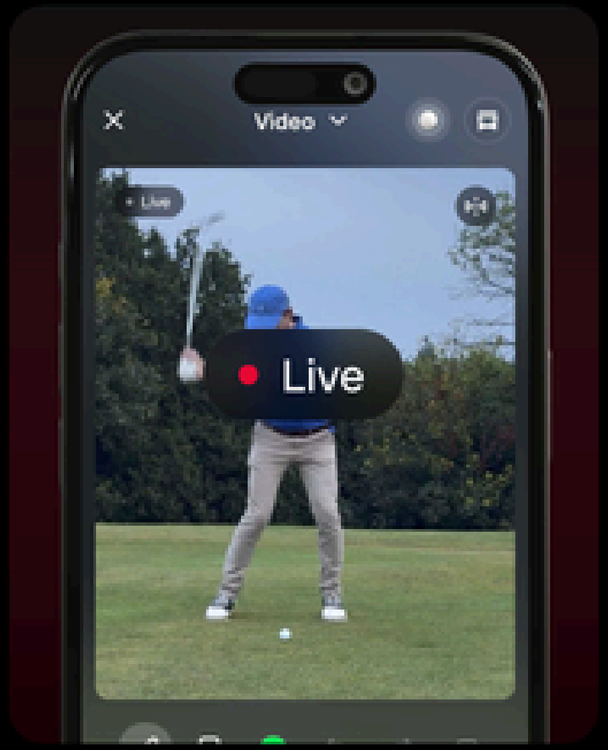

Split view

Any two views at once, or a view paired with video. Perfect for coaches and the data-obsessed. Only available for tablets. Gold membership required.

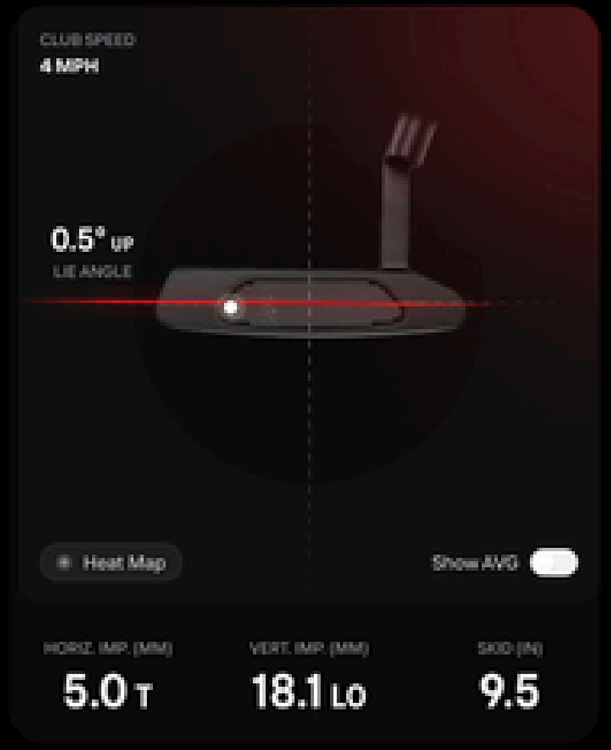

Club compare

Two (or more) clubs side by side: carry, dispersion, and accuracy in one screen. The gapping conversation, settled. Gold membership required.

Swing video

Capture swing video using your phone or tablet. Annotate and analyze your mechanics in the app alongside shot data. Gold membership required.

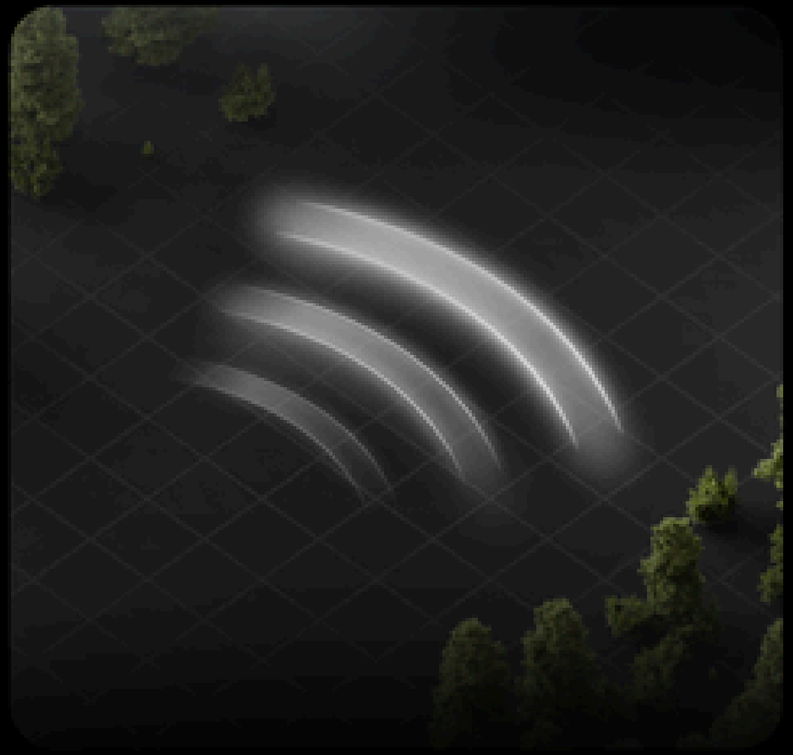

Putting analysis

Dedicated views to help you command the greens. Available for launch monitors with putting analysis upgrade unlocked.

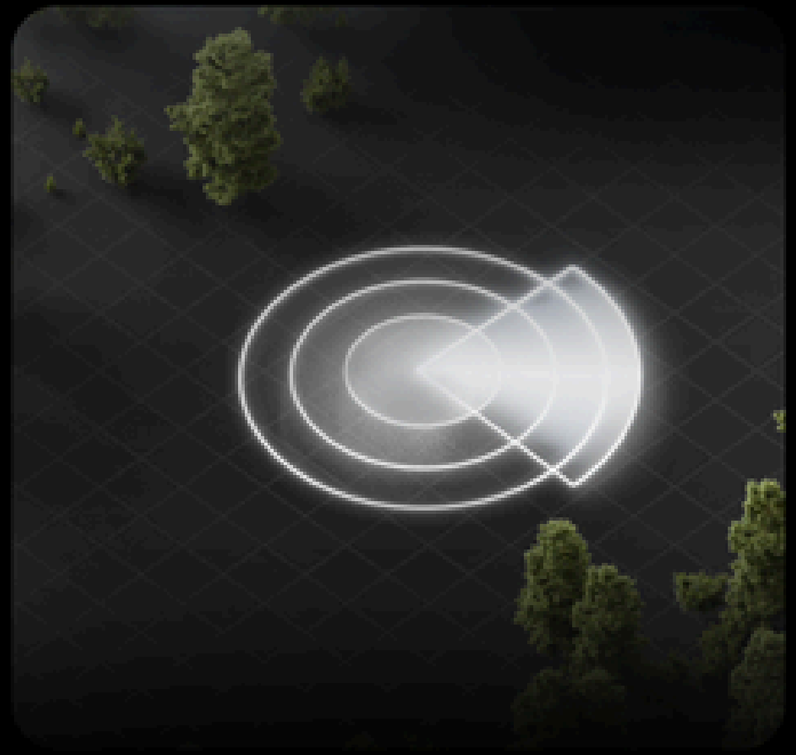

FEATURE BREAKDOWN: PRACTICE DRILLS

The Training Facility, drills, and how to practice with purpose.

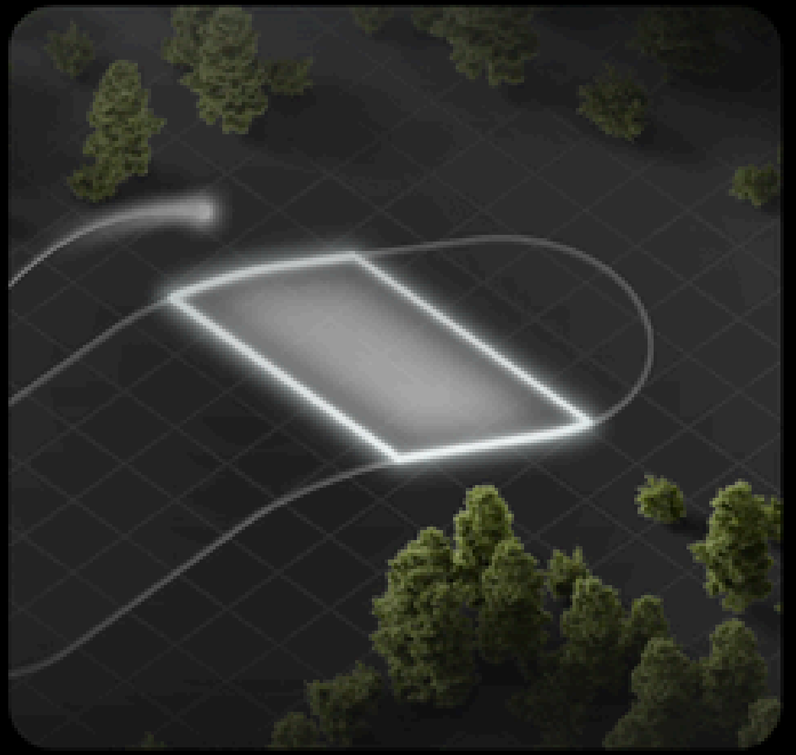

Ladder Drill

Incremental distance targets, hit-or-miss scoring. Configurable yardages and difficulties to keep things challenging. Requires Foresight+ Silver membership.

Target Practice

Fixed-distance accuracy tests. Scored by proximity. Configurable difficulty and target quadrants. Requires Foresight+ Silver membership.

Off the Tee

Situational tee shots played on real holes, drawn from GolfLogix data. Scoring that knows a fairway hit from a miss. Requires Foresight+ Gold membership.

FEATURE BREAKDOWN: PRACTICE

The Training Facility, drills, and how to practice with purpose.

Quick Range

Hitting into a net or bay and want to see your ball flight? You're one tap away with the Quick Range. No Foresight+ membership required.

AI-powered Audio Feedback

Keep your eyes on the ball. Live shot data, in your earbuds. Foresight+ Gold membership required.

Zones

Set target thresholds for metrics and get immediate feedback with every swing. Stay disciplined and stay in your zones. Foresight+ Silver membership required.

THOUSANDS OF LOCAL COURSES

Practice on real holes. Powered by GolfLogix terrain data.

OFF THE TEE DRILL

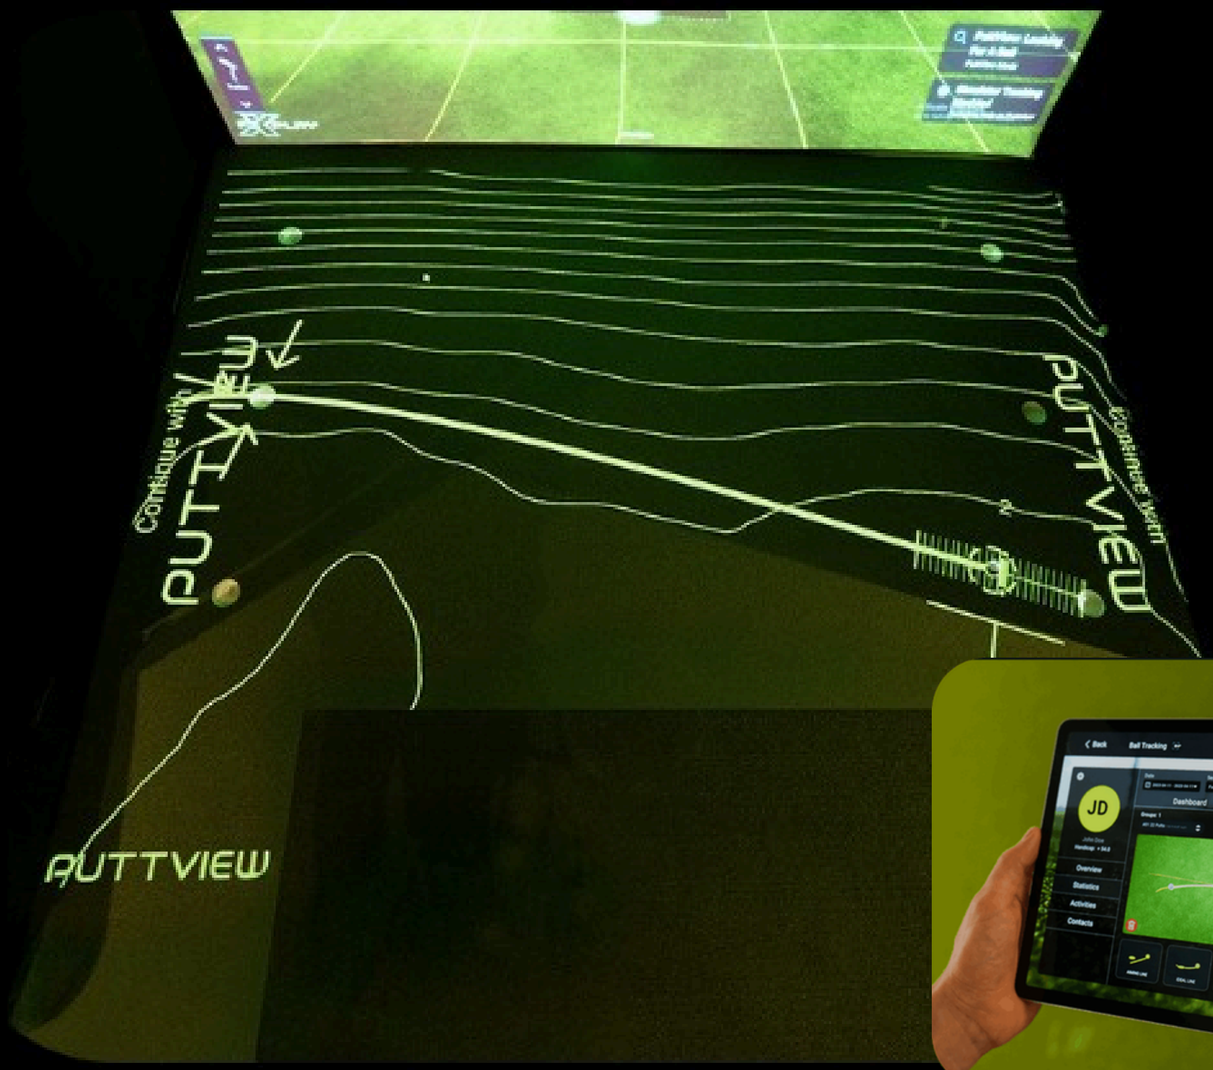

Structured trials putting you on the teebox of real courses. Get rewarded for distance, as long as you stay on the fairway. Foresight+ Gold membership required.

DISPERSION VIEW OVERLAYS

Display your shot analysis session on top of real holes from real courses for real insights. Pull up that tough tee shot and get practicing. Foresight+ Gold membership required.

PUTTVIEW CANADA

Revolutionizing Simulator Golf

Foresight Sports is the only simulator environment that integrates with PuttView, enabling you to replicate the on-course experience from tee through green. With realistic putting simulation, this partnership ensures that every part of your game, including crucial putts, feels as close to the real thing as possible.

LEARN MORE

What is PuttView?

PuttView Indoor is an augmented reality system that projects real-time putting insights directly onto the green, creating a more intuitive and engaging practice experience. A ball-tracking camera captures each putt, and when combined with Foresight Sports technology, delivers valuable data comparing your intended line to your actual result.
